EDUCATION

Bellarmino College Preparatory | San Jose, CA

Expected Graduation: 2026

GPA: 4.324 (4.0 Scale) | AP Scholar with Distinction (5s in Calculus AB/BC, Biology, Computer Science A, Physics 2, Chemistry, World History)

SAT: 780 Reading 800 Math | 1580

LEADERSHIP & ACTIVITIES

MasterStroke — Creator and AI/ML Researcher

Created an AI tool for accessible high-quality instruction on painting. Integrated various computer vision models and techniques, such as SAM2.1, PidiNet, and DepthAnything, to make a system to analyze still lifes through object detection, edge extraction, and smart layering.

VEX Robotics Team 93332E (ICC) — Team Captain

Led beginner team to regional Tournament Champion; recognized for outstanding team journey by Judges Award at state championships; Built advanced flywheel and intake subsystems past the default design

Innov8Coders (501c3 Nonprofit) — Co-Founder & Teacher Co-Lead

Founded and taught Python to K–8 students at Title 1 schools. Built a coding curriculum for underserved communities, partnered with school programs, and led 20+ volunteers impacting 100+ students.

VE Art Studio — Advanced Oil Painter

Long-term development of artistic talent, from sketching to pastels to watercolor, eventually specializing in oil painting. Developed a themed high school portfolio, showcased locally and digitally.

Hackathons and Game Jams — Developer

Built AI apps for global NGO Initiatives; Exoplanet simulation for NASA Space Apps; Game development with time constraint; Special Mention award for Reign or Ruin

Game Development Club (Bellarmino) — Vice President & Code Lead

Organized game jams and taught GoDot to 50+ students. Mentored beginners in art and code to create playable projects

FIRST Robotics Competition Team 254 (Bellarmine) — Assembly & Wiring, Alliance Readiness

Specialized in battery wiring and assembly; Cross-Team support; Contributed to two World Championship finalist robots; Underclassmen wiring mentor

3D Modeling and Animation

Created 3D scenes and models with advanced geometry, rigging, and texturing; Used Autodesk Maya; Recognized at capstone presentations

Barcbots Team 11101W — Builder and Drive Team

Iterated on intake and catapult for special gameobject; Built custom parts with industry tools; Drive team coordinator at competitions

India Community Center — Robotics Volunteer Mentor

Mentored 100+ younger students in the program I participated in during freshman year; Taught design and build principles

HONORS & AWARDS

- FRC Robotics World Championship Finalists, Team 254 (Grades 10–11)
- VEX Robotics Tournament Champion, Team 93332E (Grade 9)
- VEX Robotics Judges Award, Team 93332E (Grade 9)
- AP Scholar with Distinction: 5s in Calculus AB/BC, Biology, Computer Science A, Physics 2, Chemistry, World History
- School Recognition Award - Bellarmine College Preparatory (Grade 11)

SKILLS & INTERESTS

Machine Learning & Computer Vision, Data Analysis & Visualization, Software & Web Development, Unity Game Development (C#), 3D Modeling, Rendering & Animation (Maya, Arnold), Prompt Engineering, Robotics & Mechanical Systems, Leadership & Teaching
